**ECONOMIC & PURPOSE CLASSIFICATION OF PUNJAB GOVERNMENT BUDGET**

**2006-07**  
**2004-05 (A/C) & 2005-06 (R/E)**

**ECONOMIC & STATISTICAL ORGANISATION**

**PUNJAB**

## **PREFACE**

The present report on Economic-Cum-Purpose Classification of the Budget of the Punjab Government is based on the methodology suggested by the National Account Division, Central Statistical Organisation, Ministry of Statistics and Programme implementation, Government of India.

The Budget Expenditure of Govt. of Punjab for the years 2004-05(A/C) and 2005-06 (R/E) have been reclassified according to meaningful economic categories so as to assess the extent of capital formation out of budgetary resources, savings of the Government and its contribution in the generation of the State Income. This report is intended to provide useful information to the policy makers, planners, researchers and administrators to study the budget and performance of the Government of Punjab.

The report has been prepared by the Public Finance Section of Economic and Statistical Organization, Punjab under the supervision and guidance of Sh. M.L Sharma, Joint Director and Smt. Urmiljit Khosa, Director.

Suggestions, if any, for improvement of the coverage and contents of this report are welcome.

CHANDIGARH  
DATED:15.11.07

**TEJVEER SINGH, IAS,  
ECONOMIC ADVISER TO GOVT. PUNJAB**

### OFFICERS/OFFICIALS ASSOCIATED WITH THE REPORT

<b>Sr. No.</b>	<b>NAME</b>	<b>DESIGNATION</b>
0	1	2
1.	Smt. Urmiljit Khosa	Director
2.	Sh. M. L. Sharma	Joint Director
3.	Smt. Charanjit Kaur	Deputy E.S.A.
4.	Smt. Chanchal Bala	Research Officer
5.	Sh. Gurdip Singh	Assistant Research Officer
6.	Smt.Gursharan Kaur	Investigator
7.	Smt.Satwinder Kaur Sodhi	Investigator
8	Sh.Satnam Singh	Steno.

**(ANNEXURE –I)**  
**EXPLAINTORY NOTES ON DIFFERENT ACCOUNTS ADOPTED  
FOR ECONOMIC CLASSIFICATION**

As per recommendation of the committee on Regional Accounts, following four accounts have been adopted by Punjab State to derive inferences from Economic Classification.

**(A) Income and Outlay Account of Administrative Departments:**

This account deals with the current revenue and expenditure of government administrative departments. All departments other than those which are commercial in nature are considered as administrative for the purpose of economic classification. The current expenditure of administrative departments consists of the final outlays of government of current account which represent government's current consumption. The final outlays are made of purchase of goods and services and wages and salary payments. Besides final outlays. Government makes transfer payments, i.e. interest, grants, subsidies, scholarships, etc. to the rest of economy, which are added indirectly to the disposable income of the community. To meet this current expenditure, government appropriates a part of the income of community through a variety of taxes, miscellaneous fees, etc. accruing in the course of administration. In addition, a government has an investment income from property and entrepreneurship and also receives revenue grants, contributions and recoveries from the Union government and the rest of the economy. The excess of current receipts over current expenditure denotes the saving of the government administration available for domestic capital formation.

**(B) Production Account of Departmental Commercial Undertakings:**

The Departmental Commercial Undertakings (DCUs) may briefly be defined as agencies producing goods and services that are not provided free of charge. The essential characteristics distinguishing these departments from government administrative departments are that they charge for goods and services being provided by them and are thus able to meet most of their costs from sale proceeds.

Independent statutory corporations and boards set up by the state government is excluded from the purview of commercial undertakings included in this Account. The following activities are generally to be classified as departmental commercial undertaking:

1. Agriculture (Irrigation)
2. Road and Water Transport Schemes

3. Forests
4. Milk Supply Schemes
5. Printing Presses
6. Electricity
7. Civil Aviation

The expenditure side of the departmental commercial undertakings spells out the current expenditure into wages and salaries, goods and services, interest, consumption of fixed capital and profits. The loss on account of irrigation is treated as subsidy and is shown as imputed irrigation charges on the revenue side of the Account alongwith sale proceeds.

**(C) Capital Finance Account of General Government:**

This account is concerned with the total capital formation by government administration and departmental commercial undertakings together with capital transfer payment which are mostly for assisting capital formation in the rest of the economy. The Capital expenditure of government administration and departmental commercial undertakings has been given separately whereas the sources of finance are common to both.

**(D) PRODUCTION ACCOUNTS OF GOVT. SERVICES:**

Under this account, gross out put is comprised of (i) services produced for own use of administrative departments which have already been defined under the final consumption expenditure of Income & Outlay Account and (ii) sale of goods & services, while gross input is inclusive of (i) Intermediate consumption (ii) Compensation of employees and (iii) Consumption of fixed capital.

## ***Annexure – II***

### ***DEFINITION OF THE ITEMS USED IN ECONOMIC CLASSIFICATIONS***

**1. Compensation of employees:** This item comprises the remuneration of general government employees such as pay of officer, pay of establishment and allowances and honorarium other than traveling and daily allowances. Contributions to provident fund by the government, if any, are included here. Beside payment in cash, there are some items of expenditure which are clearly in the nature of payment in kind. Items like cost of liveries and uniforms, rations, supplied to police and defense personnel, etc. are treated as wages and salaries. Also included are all Pension Payments to government employee. Conceptually appropriation to the pension fund should actually be treated as salaries and not actual pension payments. But in the absence of any information on appropriation during the year, the actual pension payments are treated as wages and salaries. Leave travel concessions also is treated as part of wages and salaries. Similarly medical charges and reimbursement of medical expenditure, cost of text books to the children of low-paid govt. employees are also treated as wages and salaries.

**2. Commodities and Services:** This item includes all expenditure under contingency such as office supplies, rent, rates and taxes, fuel and light, printing, travel expenses, telephone and telegraph charges, and other current operations less sales by general government of goods and services to enterprises and households. Whole of the expenditure on current repairs and maintenance is included here. Also included are all payments / charges for services rendered for other agencies / departments. Strictly speaking, rent paid is one of the factor payments and should be classified accordingly. But the same is not being done due to non-availability of data.

**3. Interest :** Interest comprises interest on public debt and other obligations other than on commercial debt (as the same is taken into account in Production Account of Departmental Commercial Undertakings). The interest paid to or received from other public authorities are to be shown separately.

**4. Subsidies:** Subsidies include all grants on current account which private industries receive from the Government. These may take the form of direct payments to producers or

differentials between the buying and selling prices of government trading organisations. Thus subsidies are transfers which in the light of the basis of making the grants, are addition to the income of the producers from current production. Under certain circumstances subsidies include the grant made by government to public corporation in the compensation for losses, i.e., negative operating surplus, in connection with the losses of Departmental Commercial Undertaking's. This will be the case when the loss is clearly the consequence of the policy of the government to maintain prices at a level at which the proceeds of the public industry will not cover the current cost of production. All current transfers to public corporations, irrespective whether they are made to maintain the price level or for other purposes, are to be treated as subsidies. In the case of departmental undertakings, losses which are not compensated for by subsidies will be transferred to the income and outlay account of general government as negative operating surplus. Rebate on the sale of handloom cloth; loss on the sale of fertilizers, improved seeds, pesticides and agricultural implements, loss suffered by the cooperative societies etc. are to be treated as subsidies. In the case irrigation, the loss by the departmental undertaking is treated a subsidy.

**5. Current Transfer:** Current transfers or grants paid fall under three main categories.

Firstly, these can be to other public authorities like central government, state governments and local authorities, secondly to rest of the world and thirdly to other sectors including the household like grants to aided schools, scholarships and stipends, welfare of the weaker sections of the society.

**6. Saving on Current Account:** The balancing item on the current account of government administration represents the saving of this sector, that is, surplus of current receipts over current expenditure.

**7. Income from property and Entrepreneurship:** This flow records the income receivable by the State Government from departmental commercial undertakings as well as the net rent and dividends accruing to it from the ownership of buildings or financial assets.

**8. Interest:** Interest received can be classified into three broad categories, from the local bodies and from the departmental commercial undertakings. The interest received from Departmental Commercial Undertakings appears as a payment item in Production Account of

Departmental Commercial Undertakings. This item, therefore, is deducted from both interest received and interest paid so that there is no double counting.

**9. Direct Taxes:** Direct taxes in the SNA include two components, viz. Direct taxes on income and other direct taxes. Direct taxes on income cover levies by public authorities on income from employment, property, capital gains or any other source except for social security contribution. Other direct taxes include levies by public authorities at regular intervals on the financial assets or total net worth of enterprises, private non-profit institutions or households. Non-recurrent or occasional levies on these items are excluded and treated as capital transfers. Estate duties, though included under capital transfers as per SNA, have been treated as direct taxes in our classification.

**10. Indirect Taxes:** Indirect taxes are defined as taxes assessed on producers that are chargeable to the cost of goods and services produced or sold. They include import and export duties, excise sales, entertainment and turnover taxes, real estate and land taxes (unless they are merely administrative device for collecting income tax), levies on value added and the employment of labour, motor vehicle driving test licence, airport and passport fees when paid by producers.

**11. Miscellaneous Receipts:** These receipts are in the nature of fees, fines and forfeitures.

**12. Revenue, Grants, Contribution etc.:** Revenue, Grants, contribution are mostly from other public authorities viz. transaction from centre to state or interstate transactions.

**13. Consumption of fixed capital:** Provision for depreciation made for the purpose of ensuring that the value of fixed capital used up during the year is charged as a cost against the operating revenue of the year. The provisions are designed to cover wear and tear and foreseen obsolescence of all fixed capital as well as accidental damage to it.

**14. Change in Stock:** Change in stocks represent the value of the physical change in raw materials, work in progress (other than the work in progress in buildings which are included in fixed capital formation) and finished products which are held by commercial enterprises and in

government stockpiles. The estimates of change in stocks are compiled separately for administrative departments and the departmental enterprises. In the case of administrative department, the stock held are (i) in the nature of policy stocks like food, fertilizers etc. and (ii) work stores under the civil works departments which consist of cement, bricks, steel etc. The purchase or additions less sales/withdrawals during the year, as given in the detailed demands for Grants is taken as change in stocks.

**15. Gross Fixed Capital formation:** Gross capital formation represent the gross value of the goods which are added to the domestic capital stocks during a year. It comprises both expenditure on the acquisition as well as own account production of fixed assets. The gross fixed capital formation has been classified into (i) Building and Other Construction (ii) Machinery and Equipment.

**(i) Building and other Construction:** Building includes all expenditure on new construction and major alteration to residential and non-residential buildings during the year. It includes construction cost of the building together with cost of external and internal fixtures during the year. Other construction includes mostly expenditure on construction of roads and bridges and works on power and irrigation projects, flood control, forest clearance, land reclamation, water supply and sanitation.

**(ii) Machinery and Equipment:** This item includes expenditure incurred on the purchase of various equipments such as busses, jeeps, trucks, tractor for road haulage power generating machinery, agricultural machinery and implement office furniture, machinery and equipment and instruments used by professional men.

**16. Net Purchase of Physical Assets:** The major component here is purchase of land. Occasionally, purchase and sale of second-hand capital assets are also shown in the budgets. These transactions are to be treated as sale/purchase of second hand assets and classified separately to their relevant categories.

**17. Capital Transfers:** Capital transfers cover grants to finance the construction of buildings, purchase of machinery and equipment and for public works, water supply and sewage disposal schemes etc. Capital transfers are intended to assist capital formation in other sectors of economy.

**18. Receipts on Capital Account:** This part deals with the financing of the capital formation and the sources of the same are explained here under:

**(a) Saving:** The saving on current account is directly taken from income and Outlay Account.

**(b) Net Borrowings:** Items like internal debt, small savings, provident fund etc. are included here.

**(c) Other Liabilities:** All investments in the share capitals or statutory corporations, cooperative societies are classified as financial assets and are shown against other liabilities as a negative figure. Also included are the extra-budgetary receipts like loans from Government of India, inter state debt settlements, contingency fund, deposits and advances, suspense, remittances and cash balances etc. Besides like famine relief fund, road fund etc. maintained by state Govt. are also covered here.

## ANNEXURE-III

ALB	Advances to Local Authorities
ANG	Advances to other
ROL	Repayment of Loan

## **ANNEXURE - IV**

### **PRINCIPLES OF PURPOSE CLASSIFICATION ADOPTED IN THE ANALYSIS**

All the items of the expenditures are grouped under the appropriate categories regardless of their manner of presentation in the budget. Items which relate to more than one purpose are first disintegrated in accordance with details that are given in the budget, and then classified into appropriate purpose categories. In the absence of any details, either the major function of the expenditure is considered as the purpose or it is disintegrated into related purpose categories applying some suitable norms.

In case of grants, loans and advances to private institutions or to individuals, if the purpose of utilization is not specifically mentioned, classification is done on the basis of the main functions of the institutions which are receiving the grants, loans and advances. In some cases neither the name of the organization receiving the grants, loans and advances nor the purpose of utilisation is given, in such cases the classification is done on the basis of account heads under which these expenditure have been shown.

Facilities provided to employees, like residential housing, free or subsidized medical aid, etc. are classified by the nature of the facility and not by functional character of the office providing the facilities., Accordingly, loans and advances to employees for construction of houses, purchase of motor cars etc. are classified according to types of the services likely to be obtained by the utilization of the loans.

Pensions and other retirement benefits (including employees family pension schemes) are distributed to all the purpose categories in proportion to the amount of wages and salaries attributable to different categories. The welfare pensions, like old age pensions, pensions to political sufferers or to freedom fighters etc., are, however, classified under the welfare services.

## ANNEXURE – V

### ILLUSTRATION OF PURPOSE CLASSIFICATION OF SOME IMPORTANT ITEMS

Expenditure on general administration is of two types viz. (i) Expenditure on administrative work related to various purpose categories like education, health, defence, agriculture, industries etc. (ii) Expenditure on general administration of the government as a whole like department of personnel, administration reforms, home external affairs, police, jails, justice, etc.

Both the types of administrative or secretariat expenditure are given in the budget. For our purposes, the expenditures related to type (ii) are shown under the general administration and those related to type (i) are shown under the related purpose categories.

#### **Expenditure on education can be split into three groups:**

- (a) General education provided in schools, colleges, universities, centers of higher research & learning's and other institutions providing specialized trainings.
- (b) In-service training or on the job training for the employees deputed by any organisation or office.
- (c) Apprenticeship or similar other training in specialized fields organized for persons with the object of fixing them in employment on the basis of the performance in the training.

In regard to purpose classification, category (a) above is classified as expenditure on education. The other two categories are classified into purpose categories in accordance with the character of the body organizing the training.

The medical colleges and nursing schools are grouped under the category education even though they are reported under other account heads "Health" etc. All types of scholarships to students whether paid by the Department of Education, Department of Social Welfare or any other body etc. grouped under category education. Expenditure on cultural, recreational and religious activities (including that for NCC, youth welfare and physical education) are classified under the 'recreational services'. Expenditure in regard to physical training in the educational institutions, are however, grouped under education.

Hospital and dispensaries are grouped under category 'health'. Expenditure incurred on registration of births, diseases etc., are considered as expenditure on health research and, therefore, classified under 'health'. Family planning activities are treated as those relating to welfare services and classified accordingly.

The expenditure relating to account heads 'Rural Development', 'Community Development', 'National Extension Services' etc. have been broken to the extent possible on the

basis of information provided in the budget. The overhead expenditure on the specific general expenditure relating to those account heads are classified under category housing and community amenities.

The expenditure on P.W.D. are also split up and classified under different categories according to the nature of offices for which construction has been done. Thus, expenditure on construction of school buildings is classified under the category 'education' hospital buildings under 'health' and general government office buildings under 'general government services'. Expenditure on residential quarters for employees (including their controlling office i.e. Estate Office) is classified under the category 'housing and community amenities' irrespective of the fact that whether the accommodations are for school teachers or for hospital doctors. The overhead expenditure of establishment has been distributed to related purpose categories based on some norms.

Cooperation in general is classified under the category 'Other Economic Services'. But expenditure for cooperative societies serving activity is classified under that category.

Expenditures incurred on publicity relates to various purposes like family planning, improved agricultural products, tourism, etc. Thus, the expenditures are put under various purpose categories according to the nature of the service. But expenditure incurred in regard to Press Information Bureau and Directorate of Information and Publicity which serve all the departments of the government are classified under 'general government services'.

Refugees relief is a typical item and has been grouped under the category relief operation along with famine relief, flood relief, drought relief etc. Expenditures under this head are also meant for some specific types of services such as medical, housing, education etc. Such expenditures are attributed to specific purposes for which they are spent. Those which cannot be attributed to specific purposes are classified under relief operation.
